55+
Locations Worldwide

Belcan is a global supplier of engineering, technical recruiting and IT services to customers in the aerospace, industrial and government sectors. A U.S.-based company with nearly 60 years of superior results, we engineer better outcomes through adaptive and integrated services for clients with sensitive, high-security projects. Our comprehensive and consultative approach to engineering combines tried-and-true practices with the latest breakthroughs. As a result, our clients are more productive, more competitive and more profitable.
